

COMPATIBILIDAD BUGGYPOD

Octubre 2011

Cada fabricante de sillas de paseo o cochecitos tiene sus propias garantías. Tenga en cuenta que el uso del Buggypod, o de cualquier otro accesorio que no sea del fabricante, pudiera anular la garantía de su silla.

El Buggypod incluye un set de soportes estándar tamaño 51. Si requiere otro tamaño de soportes, barra adaptadora o recambios, póngase en contacto con el servicio de Atención al Cliente. (datos al final de este documento)

| | | Buggypod Smorph 2 | | | | Buggypod io | | | | |
|-------------|---------------------|----------------------------|-------------------|-------------------------|---------------------------|----------------------------|-------------------|-------------------------|---|--|
| Marca | Modelo | acoples estándar tamaño 51 | acoples tamaño 70 | necesita barra adaptora | IMPORTANTE: Observaciones | acoples estándar tamaño 51 | acoples tamaño 70 | necesita barra adaptora | se puede utilizar con la rueda frontal instalada? (disponible con el Kit de Conversion) | IMPORTANTE: Observaciones |
| | | | | | | | | | | El io tiene 7 alturas del eje de la pata, donde 1 es la más baja y 7 la más alta; 4 es el número marcado para la posición de transformación. |

IMPORTANTE: Por favor, considere que añadir el Buggypod a sillas de paseo gemelares genera una mayor amplitud y peso para transportar.

Revelo Ltd y Baby Emporium no pueden garantizar que el Buggypod se acople a cada marca y modelo de silla o cochecito. Se recomienda seguir siempre las guías generales de instalación:

El Buggypod se puede acoplar a la mayoría de cochecitos y sillas de paseo, incluyendo las gemelares y de 3 ruedas.

La correa de plástico para el montaje se puede ajustar fácilmente a la mayoría de los chasis de sillas y cochecitos de paseo, tanto si son ovales, cuadrados, redondos, delgados o gruesos.

Los soportes estándar de tamaño 51 (incluidos con el buggypod) son aptos para chasis de hasta 4cm de espesor. Los soportes de tamaño 70 (opcionales) son aptos para chasis con más de 4cm de espesor.

El Buggypod tiene incluido un pack de soportes estándar, de tamaño 51. Si requiere soportes tamaño 70 (para chasis de más de 4cm de espesor) o barra adaptadora deberán solicitarse adicionalmente.

Consulte precios y referencias de los accesorios opcionales del Buggypod.

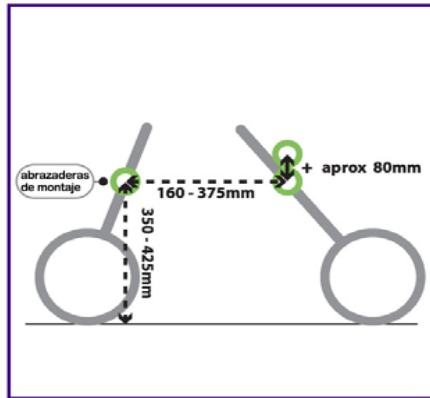

Para ver si el Buggypod se acopla correctamente a un modelo de silla, el usuario deberá mirar si hay puntos de fijación en los dos tubos principales al lado derecho del chasis de la silla o cochecito de paseo.

Para el Buggypod Smorph, el punto de fijación de la parte trasera deberá tener una altura de entre 35 - 43cm desde el suelo.

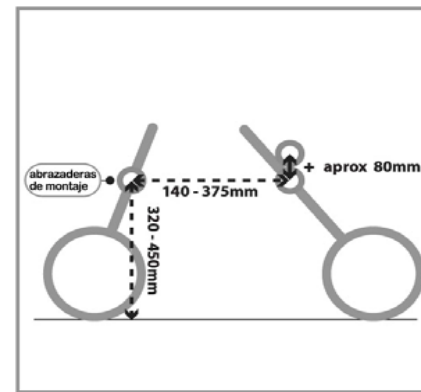

Para el Buggypod iO, el punto de fijación de la parte trasera deberá tener una altura de entre 32 - 45cm desde el suelo.

El punto de fijación frontal puede estar al mismo nivel, o hasta 8 cm más arriba, que el punto de fijación de la parte trasera.

Buggypod Smorph 2:

Buggypod io:

No acople el Buggypod alrededor de dos barras telescópicas paralelas, ya que pueden deslizarse o moverse entre ellas al plegar el cochecito (ej. Bebeconfort Loola). Si existen barras paralelas, se puede acoplar el soporte a una de las barras solo cuando exista un espacio mínimo de 2mm entre estas (ej. Mamas & Papas Pliko).

En todo caso, el usuario deberá controlar que el acople del Buggypod no causa ninguna interferencia con el sistema de frenado o funcionamiento correcto de la silla.

Se debe verificar también que la posición de la barra de acople sea vertical (al verla de frente), de forma que tanto el soporte como el Buggypod permanezcan en esta posición también.

Se puede acoplar la abrazadera de montaje frontal en una posición ligeramente más alta que la trasera si esto ayuda a asegurar un mejor montaje. El resultado es que el asiento del Buggypod se inclina hacia atrás (como en muchos cochecitos) y en muchos casos mejora la posición de reclinado.

IMPORTANTE: El Buggypod debe probarse con el complemento con el que se desea utilizar para comprobar su compatibilidad (Capazo, Silla Gr. 0, etc). En ningún caso deberá acoplar el Buggypod si cree que puede interferir con el funcionamiento normal de la silla de paseo, con o sin algún complemento añadido, o si cree que no es seguro para los niños.

Puede serle útil ver imágenes del Buggypod acoplado a algunos modelos de sillas y cochecitos de paseo, puede consultarlas en el siguiente enlace: http://www.buggypod.com/support_fitting.php
